## WORK EXPERIENCE

**Legrand, North America** — Markham, ON, Canada
Product Manager — 05/2025 – Present

- Directed the software product roadmap for the Wattstopper Digital Lighting Management (DLM) platform by partnering with hardware and firmware product managers, product marketing, and sales team to prioritize products releases and align with market needs.
- Translated customer and business feature requests into technical requirements by creating Product Requirements Documents (PRD), enabling our internal technical teams to deliver solutions aligned with strategic objectives.
- Designed high-fidelity wireframes and interactive prototypes alongside UX/UI design team using requirements defined in PRD, securing early technical buy-in on product features and reducing ambiguity throughout the development lifecycle.
- Optimized Azure DevOps backlog by defining detailed epics, features, user stories, and acceptance criteria from PRDs, improving sprint planning accuracy and supporting consistent Agile delivery across engineering teams.

**Nuclear Promise X** — Whitby, ON, Canada
Product Manager & Designer — 03/2023 – 05/2025

- Led cross-functional teams within the Products department in delivering digital solutions by defining product features, prioritizing backlog items, and ensuring alignment with clients such as Ontario Power Generation, and Bruce Power.
- Managed product roadmaps by collaborating with key stakeholders, conducting user interviews, and identifying pain points leading to streamlined digital processes and boost overall user experience.
- Transformed client's requirement and discovery work findings into high-fidelity wireframes using Figma, aligning with company brand guidelines, user expectation, and technical constraints for developers.
- Defined project requirements by creating detailed user stories and acceptance criteria based on discovery sessions, and stakeholder feedback, leveraging Azure Devops to ensuring alignment with Agile development methodologies.
- Validated project's functional requirements by developing a user acceptance testing (UAT) plan to ensure streamline stakeholder quality assurance testing, embedding the acceptance criteria from Azure DevOps.

**Ontario Power Generation** — Pickering, ON, Canada
Template Specialist — 04/2022 – 03/2023

- Spearheaded the development of a province-wide IT health status app, enhancing company operations through real-time system status updates and proactive maintenance using Microsoft Power Apps and Power Automate.
- Modernized workflow by digitizing paper forms into responsive web apps with Figma, Microsoft Power Apps, Power Automate, and SharePoint.
- Standardized document templates for the entire company, ensuring consistent branding and streamlined document creation using Figma, Microsoft Office, and Visual Basic for Applications.

**Royal Bank of Canada** — Toronto, ON, Canada
Data Analyst, Global Procurement — 03/2022 – 04/2022

- Influenced decision making on how to invest in socially responsible vendors by modelling and visualizing diverse datasets leveraging Excel and Tableau.
- Enhanced data accuracy and cleanliness by implementing a new migration tool that involves process mapping and elimination of errors to ensure the department can utilize for future projects.
- Revamped department identity by designing various team logos that align with RBC's styling brand using Figma.

## WORK EXPERIENCE CONTINUED

**Royal Bank of Canada** — Toronto, ON, Canada
Associate, Career Launch Program — 03/2021 – 03/2022

- Delivered data analytics, reporting, and dashboard solutions leveraging Tableau and Excel, transforming datasets into user-oriented insights to support procurement, and operational decision-making.
- Designed and enhanced digital experiences by creating marketing assets, wireframes, and web content using Figma, while improving internal collaboration and project tracking through tools such as Planview ProjectPlace.
- Supported business operations and client services by analyzing data across internal and third-party systems, conducting investigations, and providing recommendations that improved process efficiency and stakeholder outcomes.

**Ferraz Creative** — Toronto, ON, Canada
Junior Web Developer — 09/2020 – 06/2021

- Built production websites by collaborating with senior developers and designers on aspects of the site using the tech stack of PHP for WordPress, HTML, CSS, JavaScript and Figma.
- Maintained website quality assurance by implementing responsive testing to ensure the backend data and front-end interfaces reflect properly on all platforms.
